PROFILE

Data Science student with practical experience in retail operations and data analytics. Skilled in Power BI, SQL, Python, Excel, Power Query, DAX, data visualization, and data cleaning. Interested in turning business data into clear dashboards and actionable insights.

EDUCATION

BK.BIRLA COLLEGE(UNIVERSITY OF MUMBAI

Mumbai, India

Bachelor of Data science

2024 – 2027

- Among the top 5% of the batch
- currently in 3rd Year
- CGPA: 8.27/10.00 (up to Semester 4)

Technical Skills

- **Programming:** Python
- **Data Analysis:** Pandas, NumPy
- **Database:** SQL, MySQL
- **Data Engineering:** ETL, Data Cleaning,
- **Visualization:** Power BI, Excel, Matplotlib
- **Tools:** VS Code, Jupyter Notebook,
- **Concepts:** Data Analysis, Data Preprocessing, Data Visualization, Database Management

CERTIFICATIONS

· *Fundamentals Of Data Analytics* — L&T Edutech | 30 Aug 2024 – 31 Dec 2025

· *Programming For Data Analytics (Python)* — L&T Edutech | 23 Jan 2025 – 15 Apr 2025

· *Data Manipulation and Analysis Techniques Using Python Libraries* — L&T Edutech | 23 Jul 2025 – 30 Oct 2025

EXPERIENCE

Work Experience

(Instakart Services Private Limited) / Flipkart Minutes

Store Operations / [Auditor] | [April 25] – [June 26]

- Audited operations across 6 stores within the assigned cluster to evaluate compliance with operational standards and processes.
- Conducted store-level audits to identify operational gaps, process deviations, and areas requiring improvement.
- Reviewed store activities and operational performance to ensure adherence to defined company guidelines.
- Identified recurring issues and communicated observations to relevant teams for corrective action.
- Prepared and maintained audit findings and followed up on identified operational issues.
- Worked independently across multiple stores while coordinating with store teams and management.

PROJECTS

Retail Sales Performance Dashboard | Power BI, DAX, Power Query, Data Modeling ([github](#))

- Developed an interactive Power BI dashboard to analyze retail sales performance and generate business insights.
- Used Power Query for data preparation and DAX for creating analytical measures and KPIs.
- Applied data modeling and visualization techniques to present sales trends and performance metrics.

Data Engineering Practical Projects | Python, SQL, Power BI, ETL, PySpark, Apache Airflow (ongoing)

- Developed practical data engineering workflows covering data processing, ETL, SQL, and PySpark.
- Worked with data pipelines for extracting, transforming, cleaning, and preparing data for analysis.
- Explored Apache Airflow and end-to-end data pipeline concepts for automated data processing.
